

ASTRA

Astra is a lighting fixture to apply in category Ce2 and Me2 super streets. Its optical system is based on silicone lenses with 3 different street lighting angles and 3 different simmetric angles (80°, 100° and 140°). Silicone optics allow to avoid the use of glass or PMMA, are IP 67 and make the lighting fixture vandalism-proof. The body is made of extruded aluminium to ensure a good heat dissipation despite the small dimensions.

Mechanical Features

Body: aluminium anodized

Color: any color

Cooling: natural convection

Front: silicone

Dimensions: 650x550x100 mm

Weight: 9,50 kg

IP Grade: IP 67

Fixing: street lighting pole

Electrical Features

Vac: 100-240 50/60 Hz

Power: 114 W

Control: on/off, dimmable

Lighting Features

Lighting Source: COB LED

Color temperature: from 2200°K to 6500°K

Luminous flux: 11886 lm (4000°K - CRI 70)

LM80: 44000 h

Optics: Street Lighting, Park Lighting

Variants: Spot Lighting
